INTERNSHIP

Analysed	(July, 2023 - Oct, 2023)
<ul style="list-style-type: none">Developed a comprehensive client management and health monitoring platform for physiotherapists, utilizing React.js for the frontend and Firebase for the backend.Designed and implemented an efficient Firebase database schema for seamless data management and real-time tracking of client metrics.Enhanced user engagement with client interaction features, including a messaging system, and introduced activity assignment and management capabilities, improving patient care.	

PROJECTS

Orange Hacks

- Designed and developed a Next.js website for the Orange Hacks community, featuring a modern and intuitive user interface.
- Enabled visitors to effortlessly explore past and upcoming events while fostering community engagement. Leveraged Next.js's server-side rendering capabilities to enhance performance and optimize SEO for the website.

AI Odyssey

- Created a dynamic React-based website for the AI Odyssey event, offering detailed event information, schedules, and relevant content.
- Leveraged React's component-based architecture and state management to create an interactive platform, allowing attendees to explore event details and engage with content.

ACHIEVEMENTS

Smart India Hackathon - Finalist in SIH 2022, a prestigious national-level hackathon organized by MoE.

Microsoft Imagine Cup - Ranked among the top 20 teams in India and top 5 teams in the Earth category.

VOIS Hackathon - Achieved a position in the top 8 teams in the National Finale of the VOIS Hackathon.

Coding Platforms - Earned a 3-star rating on LeetCode and a 5-star rating on HackerRank

LEADERSHIP AND EXTRA-CURRICULAR ACTIVITIES

- Student representative in the Board of Studies.
- Organized and hosted over 10 successful technical and non-technical events.
- Actively led and participated in diverse event-hosting communities, fostering collaboration and knowledge sharing through impactful events.
